## SUMMARY OF SKILLS AND QUALIFICATIONS

---

- TSSA-certified Operating Engineer 3rd Class with a 4.0 GPA in the Cambrian College PETQ program
- Work experience at a 2nd Class cogeneration power plant and a 1st Class steam plant, including startup, shutdown, and operation of engines, burners, boilers, chillers (absorption, compression), steam turbines, and other auxiliaries
- Already familiar with UW Campus, with experience working at a similar site with mechanical rooms dispersed among 10 different buildings
- 2 years' experience as Chief Engineer managing a 4th Class plant
- Experience working 12 hour continental shifts and overtime
- Always responsible and follow safety protocol
- Quick hands-on learner with very good intuitive reasoning and problem solving skills
- Excellent communication skills, with a passion for studying language
- Emergency First Aid & CPR C certified March 2019

## WORK EXPERIENCE

---

SEP 2019 | **Hamilton Health Sciences** Hamilton, ON

PRESENT | ***Cogeneration Operator 3rd Class***

- Operate a 2nd Class cogeneration power plant, managing steam load and space temperatures across the hospital, starting and shutting down engines, burners, boilers, chillers, and auxiliaries as needed
- Perform rounds across the power plant, hospital grounds, and mechanical rooms across 10 buildings, analysing water samples, taking readings, and observing for leaks and equipment malfunctions
- Respond to emergency situations, managing mechanical equipment during power outages, fire alarms, split water pipes, and restarting tripped engines and fan units
- Perform maintenance on mechanical equipment, including changing filters, belts, air traps, and engine spark plugs
- Answer calls during hospital off-hours, performing minor maintenance on hospital equipment
- Comfortable using Johnson Controls Metasys BAS

JAN 2017 | **Toronto District School Board** Toronto, ON

SEP 2019 | ***Head Caretaker / Chief Engineer 4th Class (Oct 2017 – Sep 2019)***  
***Shift Leader (Jan – Oct 2017)***

- 2 years as Chief Engineer at a 4th Class plant, managing building heating across two buildings
- Filled in for Chief Engineers across 10 different plants, as needed, often on short notice
- Performed maintenance work as needed, including filter and belt changes, regular boiler checks, and troubleshooting building heating, mechanical issues, and leaks
- Praised for thoroughness of summer school cleanup done under my supervision at two locations
- Managed \$4000 annual supplies budget, handled staff health and safety concerns, co-ordinated with board tradesmen and contractors for planning maintenance and construction work while ensuring student, staff, and parent safety
- Comfortable with using SAP for ordering items and putting in work orders
- TDSB certified Delta 2 BAS Operator

MAY 2016 | **U.S. Steel Canada Lake Erie Works** | Nanticoke, ON  
 AUG 2016 | ***Operating Engineer Assistant***

- Started and shut down steam driven and electric pumps, and performed filter backwash
- Participated in starting up an 80 MT/hr package boiler
- Drew detailed diagrams of Steam, Fuel, and Feedwater systems
- Did the rounds, taking readings across all of the Central Power Station
- Analysed water samples for hardness, conductivity, and multiple compounds
- Changed filters and belt on a large HVAC unit

JAN 2014 | **Aunty's Kitchen** | Waterloo, ON  
 AUG 2015 | ***Crew / Shift Manager***

- Prepared food while following food handling and safety procedures
- Praised for ability to learn how to work various food stations without previous experience
- Promoted to Shift Manager and entrusted with managing shifts of up to 7 employees, counting float and inventory, making management suggestions, and teaching other employees

**EDUCATION**

---

JUN 2016 | **Diploma in Power Engineering Techniques** | Sudbury, ON  
 Cambrian College

DEC 2013 | **Bachelor of Arts in Liberal Studies (4-Year)** | Waterloo, ON  
 University of Waterloo

**VOLUNTEER EXPERIENCE**

---

**Magic: The Gathering Level 2 Judge** | 2012 - present. Run events for 25-150 players and resolve rules issues. Worked with a team of 90 to run a 3000+ player event over 3 days

**UW Computer Science Club Treasurer** | 3 terms. Organized events, prepared budget, managed \$4000+ cashflow each semester
